**Woven Stones**

Back weaving is an old technique in Japanese textiles. These stones would be used in Japanese gardens to guide visitors along a prescribed route at the correct spiritual path.

Today, there are many ways to use these woven stones. Put them in your garden, in the garden, on your windowsill or desk. Make them on them, then there is a lot for someone who is not so good at the weaving.

# Woven Stones

Rock weaving is an art form rooted in Japanese tradition. These stones would be used in Japanese gardens to guide visitors along a prescribed route or the correct spiritual path.

Today, there are many ways to use your woven stones. Put them in your potted plants, in the garden, on your windowsill or dresser. Meditate on them, leave them on a trail for someone else to find, or give them as gifts. The possibilities are endless!

**Large Stones: \$8.00**

**Small Stones: \$5.00**
