ECK FAIR

Class III Wicked Witch of the West

Mirroring the witch herself, your design will include dark, moody almost-black flowers and foliage, together with strong green elements. There's nothing soft and sweet about the witch; she suggests angular shapes and sharp edges.

Class I : Ruby Slippers

This one is easy— go gloriously **RED**, in as many shapes and varieties as you like, to create a pleasing whole. You are always free to include other colors; the goal is a pleasing arrangement, not necessarily an all red one.
